The KIPCOR Film Series is serving up a second helping of *Cooked: Survival by Zip Code*, which focuses on the deadly 1995 Chicago heat wave to illustrate how Black, Indigenous and People of Color and low-income citizens suffer the most negative impact from natural disasters. The film is an indictment of U.S. disaster preparedness, and connects extreme weather, extreme disparity (income and other) and extreme racism. Go to kipcor.org, "Film Series," for a link to watch *Cooked* for free and a link to register for the Feb. 7 virtual discussion.
